

Wawasee Community School Corporation

CONTINUITY OF LEARNING PLAN

As we work closely with the Indiana Department of Education, state / local health and government officials, the Wawasee Community Education Association, community leaders, and families, we will continue to develop plans that consider the safety and well being of our students and staff. The models are designed to move seamlessly from one to another if safety considerations prohibit face-to-face learning for a short or extended period of time. No matter the current environment or model, our mission of partnering with students, families, and community to meet the needs of all students while empowering them to reach their highest potential is more important now than ever before.

Face-to-Face

Students meet in person at WCSC buildings using guidance from the IDOE, CDC, and local health department.

Learning Model **01**

Hybrid

Students meet on a modified schedule using a combination of virtual learning and face-to-face instruction.

Learning Model **02**

Distance

Students participate in distance learning from home, taught by WCSC teachers. Students will have the opportunity for direct classroom instruction through digital platforms.

Learning Model **03**

ONLINE OPTION

Regardless of the model that WCSC is currently using, families will have the option of enrolling in a completely online learning environment managed by Wawasee Community School Corporation teachers and staff.
